SUBJECT INDEX

In general, subject headings are based on the National Library of Medicine's Medical Subject Headings (MeSH). A few additional headings are used for greater specificity in the psychiatric field.

Access to care

Access to psychiatrists in the public sector and in managed health plans (economic grand rounds), Apr 408–410. Also see Psychiatrists' acceptance of Medicaid patients (letter), Nov 1461

Access to specialty mental health services among women in California, June 729–734

Barriers to mental health treatment after disasters (letter), Sept 1157–1158

Cost-sharing requirements and access to mental health care among Medicare enrollees with schizophrenia, Aug 960–966. Also see Correction (omission of coauthors and acknowledgment), Nov 1346

Disparities in mental health treatment in U.S. racial and ethnic minority groups: implications for psychiatrists, Dec 1600–1602

Improving treatment engagement and integrated care of veterans, Oct 1306–1308

Perceived unmet need for mental health treatment and barriers to care among patients with panic disorder, Aug 988–994

Advance directives

Advance directives: stigma strikes again (taking issue), May 515

The content and clinical utility of psychiatric advance directives, May 592–598. Also see Advance directives for persons with serious mental illness (letter, reply), July 874–875

End-of-life care for persons with Alzheimer's disease (practical geriatrics), Feb 139–141

End-of-life treatment preferences of persons with serious mental illness, May 585–591. Also see Advance directives for persons with serious mental illness (letter, reply), July 874–875

Highlights of the 2004 Institute on Psychiatric Services (special report), Jan 16–21

Medical advance care planning for persons with serious mental illness, May 576–584. Also see Advance directives for persons with serious mental illness (letter, reply), July 874–875

Alcohol-related disorders, treatment

Health service use among persons with comorbid bipolar and substance use disorders, Apr 475–480

Housing preferences of homeless veterans with dual diagnoses, Mar 350–352

How adolescents perceive the stigma of mental illness and alcohol abuse, May 544–550

Identification and treatment of substance misuse on an inpatient psychiatry unit, Mar 347–349

A longitudinal perspective on monitoring outcomes of an innovative program, Mar 301–307. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612

Relationship between use of psychiatric services and five-year alcohol and drug treatment outcomes, Feb 164–171

Use of substance abuse services by young uninsured American adults, Aug 946–953

American Psychiatric Association. Also see American Psychiatric Association Achievement Awards

57th Institute on Psychiatric Services seminar preview and advance registration, June 657–668

American Psychiatric Association honors Dorothea Dix with first posthumous fellowship, Apr 502

APA and other advocacy groups voice concerns over proposed cuts to Medicaid budget, Nov 1471

APA's efforts to eliminate disparities, Dec 1603–1605

Highlights of the 2004 Institute on Psychiatric Services (special report), Jan 16–21

Pedro Ruiz is chosen APA president-elect, Steven Sharfstein to succeed Michelle Riba as president, May 624

American Psychiatric Association Achievement Awards

Silver award: The Child and Adolescent Services Program of the World Trade Center Healing Services, Saint Vincent Catholic Medical Centers, New York: providing trauma-related treatment to students after the terrorist attacks of September 11, 2001, and other traumatic events, Oct 1309–1311

Gold award: Improving treatment engagement and integrated care of veterans, Oct 1306–1308

Silver award: Police Organization Providing Peer Assistance (POPPA), New York City: helping police officers cope with on-the-job pressure, Oct 1311–1312

Gold award: Providing housing first and recovery services for homeless adults with severe mental illness, Oct 1303–1305

Antipsychotic agents

Antipsychotic prescribing trends among youths, 1997–2002 (datapoints), Aug 904

Disparities in use of antipsychotic medications among nursing home residents in Arkansas, June 749–751

Effectiveness versus efficacy of second-generation antipsychotics: haloperidol without anticholinergics as a comparator (open forum), Jan 85–92

Medical decision making in the mental health field (letter), Feb 221

Medication treatment patterns for adults with schizophrenia in Medicaid managed care in Colorado, Nov 1402–1408

Pharmacotherapy and health care costs among patients with schizophrenia and newly diagnosed diabetes, July 803–809

Physicians' and patients' involvement in relapse prevention with antipsychotics in schizophrenia, Nov 1448–1450

Use of long-acting risperidone (letters, reply), Jan 105–107

Weight loss and anorexia with quetiapine (letter), Apr 490

Anxiety disorders

Association between concurrent depression and anxiety and six-month outcome of addiction treatment, Aug 927–933

Depression and anxiety among mothers who bring their children to a pediatric mental health clinic, Sept 1077–1083

Depression, cognition, and anxiety among postmenopausal women with breast cancer (practical geriatrics), Nov 1353–1355

Mental disorders exact heavy toll on young people, according to the second national comorbidity survey, July 885

Perceived unmet need for mental health treatment and barriers to care among patients with panic disorder, Aug 988–994

Review of treatment recommendations for persons with a co-occurring affective or anxiety and substance use disorder, Aug 913–926

Attention-deficit disorder

A comparison of service use and costs among adults with ADHD and adults with other chronic diseases, Dec 1593–1599

A simulated workplace experience for nonmedicated adults with and without ADHD, Dec 1617–1620

Trends in ADHD and stimulant use among adults: 1995–2002, Dec 1497

Trends in diagnosis rates for autism and ADHD at hospital discharge in the context of other psychiatric diagnoses, Jan 56–62

Autism
Trends in diagnosis rates for autism and ADHD at hospital discharge in the context of other psychiatric diagnoses, Jan 56–62

Benzodiazepines
Diagnosis and treatment of chronic insomnia: a review, Mar 332–343. Also see Long-term use of hypnotic agents in the treatment of chronic insomnia (letter, reply), June 752–753
The exclusion of benzodiazepine coverage in Medicare: simple steps for avoiding a public health crisis (open forum), Sept 1143–1146

Bipolar disorder
Baseline predictors of serious adverse events at one year among patients with bipolar disorder in STEP-BD, Dec 1541–1548
Health service use among persons with comorbid bipolar and substance use disorders, Apr 475–480
The increased diagnosis of "juvenile bipolar disorder": what are we treating? (child & adolescent psychiatry), May 529–531
My experiences as a psychiatric patient in the 1960s, Dec 1499–1500
Racial differences in the treatment of veterans with bipolar disorder, Dec 1549–1555
Relationship between criminal arrest and community treatment history among patients with bipolar disorder, July 847–852. Also see Criminal arrests and the threshold for competence (letter, reply), Nov 1461–1462
Suicidal ideation and pharmacotherapy among STEP-BD patients, Dec 1534–1540
Use of health care services among persons who screen positive for bipolar disorder, Dec 1529–1533

Borderline personality disorder. Also see Personality disorders
A current perspective on the psychotherapies (practical psychotherapy), Mar 255–257. Also see Psychotherapy and eclecticism (letter, reply), May 612–613
Intensive dialectical behavior therapy for outpatients with borderline personality disorder who are in crisis, Feb 193–197

Business information for readers
Jan 8, Feb 134, Mar 242, Apr 384, May 516, June 638, July 784, Aug 902, Sept 1048, Oct 1186, Nov 1340, Dec 1506

Calendar
Jan 119–120, Feb 152,156, Mar 264, Apr 390,501, May 532,623, June 669,766, July 798,884, Aug 912, 1034, Sept 1052, 1060, Oct 1196, 1202, Nov 1352, 1358, Dec 1498, 1508

Case management, community based
Assertive community treatment for persons with severe and persistent mental illness in ethnic minority groups (best practices), Sept 1053–1055
Community tenure of people with serious mental illness in assertive community treatment in Canada, Nov 1387–1393
Fidelity of an outreach treatment program for chronic crack abusers in the Netherlands to the ACT model, Nov 1451–1454

Child abuse
Highlights of the 2004 Institute on Psychiatric Services (special report), Jan 16–21
Self-cutting and sexual risk among adolescents in intensive psychiatric treatment, Feb 216–218

Child psychiatry, adolescent psychiatry. Also see Children, adolescents
Antipsychotic prescribing trends among youths, 1997–2002 (datapoints), Aug 904
The Child and Adolescent Services Program of the World Trade Center Healing Services, Saint Vincent Catholic Medical Centers, New York: providing trauma-related treatment to students after the terrorist attacks of September 11, 2001, and other traumatic events, Oct 1309–1311
Depression and anxiety among mothers who bring their children to a pediatric mental health clinic, Sept 1077–1083
The economic cost of using restraint and the value added by restraint reduction or elimination (special section on seclusion and restraint), Sept 1109–1114. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Effect of Medicaid eligibility category on racial disparities in the use of psychotropic medications among youths, Feb 157–163
Effect of structured interviews on evaluation time in pediatric community mental health settings, Sept 1098–1103
The increased diagnosis of "juvenile bipolar disorder": what are we treating? (child & adolescent psychiatry), May 529–531
Patient characteristics and setting variables related to use of restraint on four inpatient psychiatric units for youths, Feb 186–192
Pharmacologic response to depressive disorders among adolescents, Sept 1089–1097
Race, urban community stressors, and behavioral and emotional problems of children with special health care needs, Jan 63–69
Relationship between entry into child welfare and mental health service use, Aug 981–987
Self-cutting and sexual risk among adolescents in intensive psychiatric treatment, Feb 216–218
Trends in diagnosis rates for autism and ADHD at hospital discharge in the context of other psychiatric diagnoses, Jan 56–62
Use of mental health care among youths in 1997 and 2002 (datapoints), July 793
Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314
WHO releases tenth volume in its guidance package on mental health policies and services, Jan 121–122

Children, adolescents. Also see Child psychiatry, adolescent psychiatry
2004 survey finds decline in illicit drug use among, Oct 1326
Depression and anxiety among mothers who bring their children to a pediatric mental health clinic, Sept 1077–1083
Highlights of the 2004 Institute on Psychiatric Services (special report), Jan 16–21
How adolescents perceive the stigma of mental illness and alcohol abuse, May 544–550
An intensive mental health unit for adolescents in the correctional setting (frontline reports), Nov 1459
Major mental disorders, substance use disorders, comorbidity, and HIV-AIDS risk behaviors in juvenile detainees, July 823–828
Mental disorders exact heavy toll on young people, according to the second national comorbidity survey, July 885
Predictors of children's involvement in parents' treatment among homeless veterans in community residential care, Sept 1147–1149
Public costs of better mental health services for children and adolescents, Jan 50–55
Race, urban community stressors, and behavioral and emotional problems of children with special health care needs, Jan 63–69
Recent trends in suicide among U.S. adolescent males, 1992–2001 (datapoints), May 522
Relationship between entry into child welfare and mental health service use, Aug 981–987
Use of mental health care among youths in 1997 and 2002 (datapoints), July 793

Clergy
The faith community and mental health care (taking issue), Feb 133
The imam's role in meeting the counseling needs of Muslim communities in the United States, Feb 202–205

Clozapine
Comparison of clozapine use in Maryland and in Victoria, Australia, Mar 320–323. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612

Cognitive disorders, symptoms
Depression, cognition, and anxiety among postmenopausal women with breast cancer (practical geriatrics), Nov 1353–1355
Factors associated with a positive response to cognitive remediation in a community psychiatric sample, May 602–604
Relationship between cognition and work functioning among patients with schizophrenia in an urban area in India, Nov 1423–1428

Commitment of mentally ill
Assessing Kendra's Law: five years of outpatient commitment in New York (law & psychiatry), July 791–792
Dangerous severe personality disorders: England's experiment in using psychiatry for public protection (law & psychiatry), Apr 397–399. Also see Patient prosecution: protection or persecution? (letter), July 872–874
Effects of compulsory treatment orders on time to hospital readmission, July 867–869
Involuntary psychiatric examinations for danger to others in Florida after the attacks of September 11, 2001, July 858–862
Outcomes of patients in a low-intensity, short-duration involuntary outpatient commitment program, July 863–866

Communications media
Local projects of the World Psychiatric Association Programme to Reduce Stigma and Discrimination, May 570–575
Newspaper stories as measures of structural stigma, May 551–556

Community mental health services, centers
Assertive community treatment for persons with severe and persistent mental illness in ethnic minority groups (best practices), Sept 1053–1055
Community psychiatry and medical student education (frontline reports), May 608–609
Community tenure of people with serious mental illness in assertive community treatment in Canada, Nov 1387–1393
Effect of structured interviews on evaluation time in pediatric community mental health settings, Sept 1098–1103
An empowering medical model of mental health care (taking issue), Aug 901
Fidelity of an outreach treatment program for chronic crack abusers in the Netherlands to the ACT model, Nov 1451–1454
52 WHO member countries adopt mental health declaration and action plan for Europe, Feb 228–229
Impact of the wait for an initial appointment on the rate of kept appointments at a mental health center, Mar 344–346. Also see Missed Monday appointments (letter), May 613
Involvement with the criminal justice system among new clients at outpatient mental health agencies, Feb 179–185
Managing transitions to the community (letter, reply), Jan 107–108
Outcomes for long-term patients one year after discharge from a psychiatric hospital, Nov 1416–1422
Public costs of better mental health services for children and adolescents, Jan 50–55
Regional collaboration in reconstruction of mental health services in Bosnia and Herzegovina, Nov 1455–1457
Relationship between criminal arrest and community treatment history among patients with bipolar disorder, July 847–852. Also see Criminal arrests and the threshold for competence (letter, reply), Nov 1461–1462

Comorbidity
Association between concurrent depression and anxiety and six-month outcome of addiction treatment, Aug 927–933
Bazelon Center report describes model programs of integrated care, Nov 1471–1472
Best friends of people with mental illness and mental retardation (letter), May 610–611
A comparison of the aberrant behavior checklist and the GAF among adults with mental retardation and mental illness, Apr 484–486
A day hospital for adults with intellectual disabilities and psychiatric disorders (frontline reports), May 609
Depression and comorbid pain as predictors of disability, employment, insurance status, and health care costs, Apr 468–474
Design Strengths and Issues of SAMHSA's Women, Co-occurring Disorders, and Violence Study, Oct 1233–1236. Also see Recovering the momentum for federal support of multisite trials (letter), Dec 1621
A focus group analyses of relapse prevention strategies for persons with substance use and mental disorders (special section on relapse prevention) Oct 1288–1291
Future directions in preventing relapse to substance abuse among clients with severe mental illnesses (special section on relapse prevention), Oct 1297–1302
Health service use among persons with comorbid bipolar and substance use disorders, Apr 475–480
Housing preferences of homeless veterans with dual diagnoses, Mar 350–352
Incarceration associated with homelessness, mental disorder, and co-occurring substance abuse, July 840–846
Introduction to the special section (special section on relapse prevention), Oct 1269
Major mental disorders, substance use disorders, comorbidity, and HIV-AIDS risk behaviors in juvenile detainees, July 823–828
Mental disorders exact heavy toll on young people, according to the second national comorbidity survey, July 885
Pharmacotherapy and health care costs among patients with schizophrenia and newly diagnosed diabetes, July 803–809
Prevalence of psychiatric disorders and costs of care among adult enrollees in a Medicaid HMO, Nov 1394–1401
Qualitative interviews on substance abuse relapse and prevention among female trauma survivors (special section on relapse prevention), Oct 1292–1296
Relapse of substance use disorder and its prevention among persons with co-occurring disorders (special section on relapse prevention), Oct 1270–1273
Review of treatment recommendations for persons with a co-occurring affective or anxiety and substance use disorder, Aug 913–926
SAMHSA releases revised and updated treatment improvement protocol on co-occurring disorders, Mar 371
Screening for decreased oxygenation during medical evaluations (letter), Jan 108–109
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Substance abuse relapse and factors associated with relapse in an inner-city sample of patients with dual diagnoses (special section on relapse prevention), Oct 1274–1281
Substance abuse relapse in a ten-year prospective follow-up of clients with mental and substance use disorders (special section on relapse prevention), Oct 1282–1287
Twelve-month outcomes of trauma-informed interventions for women with co-occurring disorders, Oct 1213–1222. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Use of CBT in a walking program for veterans with diabetes and depression (frontline reports), Mar 355
Use of mental health care and substance abuse treatment among adults with co-occurring disorders, Aug 954–959

Complementary therapies
Use of practitioner-based alternative therapies by psychiatric outpatients (letter), Nov 1460–1461

Computers, computerized medical records
SQL Clinic: the open-source alternative for electronic medical records (clinical computing), Mar 269–271. Also see Further considerations about SQL Clinic (letter, reply), Aug 1023–1024

Confidentiality
Structural stigma in state legislation, May 557–563

Consumer participation
Allocating funds for medications and psychosocial interventions: how consumers would divide the pie (economic grand rounds), July 799–801
Client involvement in services research (letter), Oct 1315
Consumers' goals in psychiatric rehabilitation and their concordance with existing services, Feb 209–211
Consumers' perceptions of negative experiences and "sanctuary harm" in psychiatric settings (special section on seclusion and restraint), Sept 1134–1138. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
A focus group analysis of relapse prevention strategies for persons with substance use and mental disorders (special section on relapse prevention), Oct 1288–1291
Highlights of the 2004 Institute on Psychiatric Services (special report), Jan 16–21
Inclusion of mental health consumers on research teams (letter), Sept 1158–1159
A patient's perspective on psychologist prescribing (letter, reply), Feb 219–220
Patients' reports of traumatic or harmful experiences within the psychiatric setting (special section on seclusion and restraint), Sept 1123–1133. Also see Pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Perceived reasons for loss of housing and continued homelessness among homeless persons with mental illness, Feb 172–178
Service expectations and clinical characteristics of patients receiving psychiatric emergency services, June 743–745
Service-related needs and opinions of people with schizophrenia in Hungary (letter), June 754–755
Use of a consumer-led intervention to improve provider competencies, Aug 967–975

Consumer satisfaction, preferences
Assessment of Medicaid managed behavioral health care of persons with serious mental illness, Oct 1245–1253. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Association between community and client characteristics and subjective measures of the quality of housing, Mar 315–319. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612; Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Construct validity of a measure of subjective satisfaction with life of adults with serious mental illness, Mar 292–300. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Consumers' goals in psychiatric rehabilitation and their concordance with existing services, Feb 209–211
Consumer views of representative payee use of disability funds to leverage treatment adherence, Jan 45–49
The content and clinical utility of psychiatric advance directives, May 592–598. Also see Advance directives for persons with serious mental illness (letter, reply), July 874–875
Housing preferences of homeless veterans with dual diagnoses, Mar 350–352
A randomized trial of short-term acute residential treatment for veterans, Nov 1379–1386

Continuity of patient care
Bazelon Center report outlines strategies for integration of care in the private sector, May 624–625
Continuity of care and clinical outcomes in a national health system (special section on the GAF), Apr 427–433
Continuity of care and health care costs among persons with severe mental illness, Sept 1070–1076
Continuity of care and health outcomes among persons with severe mental illness, Sept 1061–1069
Managing transitions to the community (letter, reply), Jan 107–108

Corrections
For Kagan I, Kigli-Shemesh R, Bar-Tal Y, Reactions of staff members to the relocation of a psychiatric department to a new building, June (2004) 717–719, see Correction (alignment error in table), Feb 205
For Slade EP, Salkever DS, Rosenheck R, Swanson J, Swartz M, Shern D, Gallucci G, Harding C, Palmer L, Russo P, Cost-sharing requirements and access to mental health care among Medicare enrollees with schizophrenia, Aug 960–966, see Correction (omission of coauthors and acknowledgment), Nov 1346
For Zitek BO, Lewis R, O'Donnell J, Dubin WR, Assessment and management of patients who make threats against the President in the psychiatric emergency service, Aug 1017–1020, see Correction (incorrect author affiliation), Nov 1373; An emergency department's response to a patient's threat to kill the President (letter), Dec 1622– 1623

Costs and cost analysis. Also see Economics
Allocating funds for medications and psychosocial interventions: how consumers would divide the pie (economic grand rounds), July 799–801
Best practices and the visible horizon (letter), Jan 108
A comparison of service use and costs among adults with ADHD and adults with other chronic diseases, Dec 1593–1599
Components of spending for Medicaid mental health services, 2001 (datapoints), June 648
Continuity of care and health care costs among persons with severe mental illness, Sept 1070–1076
The costs and outcomes of treatment for opioid dependence associated with posttraumatic stress disorder, Aug 940–945
Cost-sharing requirements and access to mental health care among medicare enrollees with schizophrenia, Aug 960–966. Also see Correction (omission of coauthors and acknowledgment), Nov 1346
Depression and comorbid pain as predictors of disability, employment, insurance status, and health care costs, Apr 468–474
Drug-drug interactions: the silent epidemic (economic grand rounds), Jan 22–24
The economic cost of using restraint and the value added by restraint reduction or elimination (special section on seclusion and restraint), Sept 1109–1114. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313– 1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Effects on processes and costs of care associated with the addition of an internist to an inpatient psychiatry team, Apr 463–467
Patients' and caregivers' willingness to pay for a cure for schizophrenia in Taiwan (economic grand rounds), Feb 149–151
Pharmacotherapy and health care costs among patients with schizophrenia and newly diagnosed diabetes, July 803–809
Pharmacy costs: finding a role for quality (state mental health policy), Aug 909–911
Potential effects of the new Medicare drug benefit on pricing for psychotropic medications (economic grand rounds), Sept 1056–1058
Prevalence of psychiatric disorders and costs of care among adult enrollees in a Medicaid HMO, Nov 1394–1401
Public costs of better mental health services for children and adolescents, Jan 50–55

A randomized trial of short-term acute residential treatment for veterans, Nov 1379–1386
SAMHSA report examines a decade of spending on mental health and substance abuse treatment, June 767
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621

Cross-cultural issues

Cross-cultural psychopharmacology: a current clinical perspective (psychopharmacology), Jan 31–33
Ethnic differences in prediction of violence risk with the HCR-20 among psychiatric inpatients, June 711–716
Highlights of the 2004 Institute on Psychiatric Services (special report), Jan 16–21

Culture, cultural characteristics

The automobile way of life (letter), Mar 356
Comparison of clozapine use in Maryland and in Victoria, Australia, Mar 320–323. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Training program in mental illness for immigration officers (frontline reports), Nov 1458

Datapoints (column)

Antipsychotic prescribing trends among youths, 1997–2002, Aug 904
Components of spending for Medicaid mental health services, 2001, June 648
M.D. faculty salaries in psychiatry and all faculty departments, 1980–2001, Feb 142
Medicaid as a payer for services provided by psychiatrists, Nov 1356
Recent trends in suicide among U.S. adolescent males 1992–2001, May 522
Trends in ADHD and stimulant use among adults: 1995–2002, Dec 1497
Use of mental health care among youths in 1997 and 2002, July 793
Use of prescription psychiatric drugs and religious service attendance, Apr 396

Dementia

End-of-life care for persons with Alzheimer's disease (practical geriatrics), Feb 139–141
Treatable comorbid conditions and use of VA health care services among patients with dementia, Jan 70–75

Depression

Association between concurrent depression and anxiety and six-month outcome of addiction treatment, Aug 927–933
Characteristics of insured and noninsured outpatients with depression in STAR*D, Aug 995–1004
A comparison of service use and costs among adults with ADHD and adults with other chronic diseases, Dec 1593–1599
Depression among Latina immigrant mothers separated from their children, June 717–720
Depression and anxiety among mothers who bring their children to a pediatric mental health clinic, Sept 1077–1083
Depression and comorbid pain as predictors of disability, employment, insurance status, and health care costs, Apr 468–474
Depression, cognition, and anxiety among postmenopausal women with breast cancer (practical geriatrics), Nov 1353–1355
Disparities in depression treatment for Latinos and site of care, Dec 1517–1523
Follow-up of Pentagon employees two years after the terrorist attack of September 11, 2001, Nov 1374–1378
From the depths of despair to a mission of advocacy (personal accounts), Aug 905–906
Improving the quality of depression care in Medicaid (economic grand rounds), Oct 1193–1195
Incentives for primary care providers to participate in a collaborative care program for depression (economic grand rounds), Nov 1344–1346
Pharmacologic management of difficult-to-treat depression in clinical practice, Aug 1005–1011
Pharmacologic response to depressive disorders among adolescents, Sept 1089–1097
Predictors of adequacy of depression management in the primary care setting, Dec 1524–1528
Race, gender, and psychiatrists' diagnosis and treatment of major depression among elderly patients, June 721–728
Racial differences in syndromal and subsyndromal depression in an older urban population, Dec 1556–1563
Self-stigma and its correlates among outpatients with depressive disorders, May 599-601
Treatable comorbid conditions and use of VA health care services among patients with dementia, Jan 70–75
Use of CBT in a walking program for veterans with diabetes and depression (frontline reports), Mar 355
Use of practitioner-based alternative therapies by psychiatric outpatients (letter), Nov 1460–1461

Diagnosis

Diagnostic stability four years after a first episode of psychosis, Sept 1084–1088
The increased diagnosis of "juvenile bipolar disorder": what are we treating? (child & adolescent psychiatry), May 529–531
Race, gender, and psychiatrists' diagnosis and treatment of major depression among elderly patients, June 721–728
Racism and mental disorders (letter, reply), Feb 220–221
Racism and mental illness (letter, reply), June 753–754
Relationship between the Global Assessment of Functioning and other DSM axes in routine clinical work (special section on the GAF), Apr 439–443
Trends in diagnosis rates for autism and ADHD at hospital discharge in the context of other psychiatric diagnoses, Jan 56–62

Diagnostic and Statistical Manual of Mental Disorders

"Do you walk to school, or do you carry your lunch?" (special section on the GAF), Apr 419
Relationship between the Global Assessment of Functioning and other DSM axes in routine clinical work (special section on the GAF), Apr 439–443

Disabled persons

Consumer views of representative payee use of disability funds to leverage treatment adherence, Jan 45–49
Depression and comorbid pain as predictors of disability, employment, insurance status, and health care costs, Apr 468–474
Mental illness and reasonable accommodations at work: definition of a mental disability under the ADA (law & psychiatry), Oct 1188–1190
Structural stigma in state legislation, May 557–563

Disasters

Barriers to mental health treatment after disasters (letter), Sept 1157–1158
The Child and Adolescent Services Program of the World Trade Center Healing Services, Saint Vincent Catholic Medical Centers, New York: providing trauma-related treatment to students after the terrorist attacks of September 11, 2001, and, other traumatic events, Oct 1309–1311
Follow-up of Pentagon employees two years after the terrorist attack of September 11, 2001, Nov 1374–1378
Involuntary psychiatric examinations for danger to others in Florida after the attacks of September 11, 2001, July 858–862
Involvement in the criminal justice system among recipients of mental health services after September 11, Jan 80–84
Preparedness for SARS, influenza, and bioterrorism (taking issue), Jan 7
Symptoms of peritraumatic and acute traumatic stress among victims of an industrial disaster, Jan 93–95
Use of mental health services after Hurricane Floyd in North Carolina, Nov 1367–1373

Economics. Also see Costs and cost analysis; Financing, government; Insurance, health; and Managed care programs

Access to psychiatrists in the public sector and in managed health plans (economic grand rounds), Apr 408–410. Also see Psychiatrists' acceptance of Medicaid patients (letter), Nov 1461

Allocating funds for medications and psychosocial interventions: how consumers would divide the pie (economic grand rounds), July 799–801

APA and other advocacy groups voice concerns over proposed cuts to Medicaid budget, Nov 1471

Bazelon Center report outlines strategies for integration of care in the private sector, May 624–625

CMHS gains largest increase in 2005 federal mental health appropriations, NIH budget increased by only 2 percent, Jan 121

Continuity of care and health care costs among persons with severe mental illness, Sept 1070–1076

Drug-drug interactions: the silent epidemic (economic grand rounds), Jan 22–24

The economic cost of using restraint and the value added by restraint reduction or elimination (special section on seclusion and restraint), Sept 1109–1114. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622

The economics of the new Medicare drug benefit: implications for people with mental illnesses (economic grand rounds), June 645–647

Preparedness for SARS, influenza, and bioterrorism (taking issue), Jan 7
Prevalence of psychiatric disorders and costs of care among adult enrollees in a Medicaid HMO, Nov 1394–1401
Psychological distress of nurses in Taiwan who worked during the outbreak of SARS, Jan 76–79
Screening for decreased oxygenation during medical evaluations (letter), Jan 108–109
Screening for infectious diseases among patients in a state psychiatric hospital, Dec 1614–1616
Treatable comorbid conditions and use of VA health care services among patients with dementia, Jan 70–75
Use of general medical services among Medicaid patients with severe and persistent mental illness, Apr 458–462

Prisons, jails

The impact of the "incarceration culture" on reentry for adults with mental illness: a training and group treatment model (best practices), Mar 265–267
Incarceration associated with homelessness, mental disorder, and co-occurring substance abuse, July 840–846
An intensive mental health unit for adolescents in the correctional setting (frontline reports), Nov 1459
Major mental disorders, substance use disorders, comorbidity, and HIV-AIDS risk behaviors in juvenile detainees, July 823–828
Rediversion in two postbooking jail diversion programs in Florida, July 835–839
Relationship between criminal arrest and community treatment history among patients with bipolar disorder, July 847–852. Also see Criminal arrests and the threshold for competence (letter, reply), Nov 1461–1462
Validation of the Brief Jail Mental Health Screen, July 816–822. Also see Sample for validation of jail mental health screen (letter, reply), Oct 1315–1316

Psychiatric status rating scales

The BPRS-E as predictor of length of stay in a residential facility (letter), June 755–756
A comparison of the aberrant behavior checklist and the GAF among adults with mental retardation and mental illness, Apr 484–486
Construct validity of a measure of subjective satisfaction with life of adults with serious mental illness, Mar 292–300. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Continuity of care and clinical outcomes in a national health system (special section on the GAF), Apr 427–433
Defining and measuring clinical effectiveness in the treatment of schizophrenia, Mar 273–282. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Determinants of indicated versus actual level of care in psychiatric emergency services (special section on the GAF), Apr 452–457
"Do you walk to school, or do you carry your lunch?" (special section on the GAF), Apr 419
Effect of structured interviews on evaluation time in pediatric community mental health settings, Sept 1098–1103
Ethnic differences in prediction of violence risk with the HCR-20 among psychiatric inpatients, June 711–716
Relationship between the Global Assessment of Functioning and other DSM axes in routine clinical work (special section on the GAF), Apr 439–443
Reliability of Global Assessment of Functioning ratings made by clinical psychiatric staff (special section on the GAF), Apr 434–438
Selection of outcome assessment instruments for inpatients with severe and persistent mental illness (special section on the GAF), Apr 444–451
Using the GAF as a national mental health outcome measure in the Department of Veterans Affairs (special section on the GAF), Apr 420–426
Validation of the Brief Jail Mental Health Screen, July 816–822. Also see Sample for validation of jail mental health screen (letter, reply), Oct 1315–1316

Psychiatrists

Access to psychiatrists in the public sector and in managed health plans (economic grand rounds), Apr 408–410. Also see Psychiatrists' acceptance of Medicaid patients (letter), Nov 1461
Comparison of psychiatrists' and other physicians' assessments of their ability to deliver high-quality care, Mar 308–314. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
M.D. faculty salaries in psychiatry and all faculty departments, 1980–2001 (datapoints), Feb 142
Reducing reductionism: reclaiming psychiatry (taking issue), June 637. Also see Psychiatry and the recovery process (letter), Sept 1160

Psychotherapy

Assessment of the burden of disease among inpatients in specialized units that provide psychotherapy, Sept 1153–1155
A current perspective on the psychotherapies (practical psychotherapy), Mar 255–257. Also see Psychotherapy and eclecticism (letter, reply), May 612–613
An innovative inpatient psychotherapy unit in South Africa (letter), Oct 1316–1317
Diagnosis and treatment of chronic insomnia: a review, Mar 332–343. Also see Long-term use of hypnotic agents in the treatment of chronic insomnia (letter, reply), June 752–753
Intensive dialectical behavior therapy for outpatients with borderline personality disorder who are in crisis, Feb 193–197
New CSAT treatment improvement protocol addresses group therapy's role in substance abuse treatment, July 886

Psychotic disorders, symptoms

Diagnostic stability four years after a first episode of psychosis, Sept 1084–1088
Performance measures for early treatment services for psychosis, Dec 1570–1582. Also see Selecting performance measures by consensus: an appropriate extension of the Delphi method? (commentary), Dec 1583
The role of Afro-Canadian status in police or ambulance referral to emergency psychiatric services, June 705–710
Selecting performance measures by consensus: an appropriate extension of the Delphi method? (commentary), Dec 1583
The story of Margery Kempe (personal accounts), June 655–656

Psychotropic drugs, drug therapy, side effects

Antipsychotic prescribing trends among youths, 1997–2002 (datapoints), Aug 904
Comparison of clozapine use in Maryland and in Victoria, Australia, Mar 320–323. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Cross-cultural psychopharmacology: a current clinical perspective (psychopharmacology), Jan 31–33
Diagnosis and treatment of chronic insomnia: a review, Mar 332–343. Also see Long-term use of hypnotic agents in the treatment of chronic insomnia (letter, reply), June 752–753
Disparities in use of antipsychotic medications among nursing home residents in Arkansas, June 749–751
Do state Medicaid preferred drug lists affect patient safety? PDLs and the treatment of severe and persistent mental

illness (patient safety forum), Aug 1015–1016
Do state Medicaid preferred drug lists affect patient safety? Policy experiments in the states (patient safety forum), Aug 1012–1013
Do state Medicaid preferred drug lists affect patient safety? Unintended consequences of PDIs (patient safety forum), Aug 1013–1014
Do state Medicaid preferred drug lists affect patient safety? Washington state's success story (patient safety forum), Aug 1014–1015
Drug-drug interactions: the silent epidemic (economic grand rounds), Jan 22–24
The economics of the new Medicare drug benefit: implications for people with mental illnesses (economic grand rounds), June 645–647
Effectiveness versus efficacy of second-generation antipsychotics: haloperidol without anticholinergics as a comparator (open forum), Jan 85–92
Effect of Medicaid eligibility category on racial disparities in the use of psychotropic medications among youths, Feb 157–163
Effects of caregivers' perceived stigma and causal beliefs on patients' adherence to antidepressant treatment, May 564–569
Encouraging alternatives to seclusion, restraint, and reliance on PRN drugs in a public psychiatric hospital (special section on seclusion and restraint), Sept 1105–1108. Also see Use of pulse oximetry during restraint episodes (letter) Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Ethical issues in surreptitious prescribing (letter), Aug 1023
The exclusion of benzodiazepine coverage in Medicare: simple steps for avoiding a public health crisis (open forum), Sept 1143–1146
HMOs' restrictions on clinical practice (letter, reply), Mar 360–361
The irreversible damage caused by surreptitious prescribing (taking issue), Apr 383
Kaiser Commission report addresses challenges of enrolling "dual eligibles" in new Medicare drug plans, Apr 503
Medical decision making in the mental health field (letter), Feb 221
Medication treatment patterns for adults with schizophrenia in Medicaid managed care in Colorado, Nov 1402–1408
My experiences as a psychiatric patient in the 1960s, Dec 1499–1500
The need for effectiveness trials to inform evidence-based psychiatric practice (psychopharmacology), June 649–651
Oxcarbazepine and risk of falls among psychiatric inpatients (letter), Dec 1623–1624
A patient's perspective on psychologist prescribing (letter, reply), Feb 219–220
Patterns and quality of treatment for patients with schizophrenia in routine psychiatric practice, Mar 283–291. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Pharmacologic management of difficult-to-treat depression in clinical practice, Aug 1005–1011
Pharmacologic response to depressive disorders among adolescents, Sept 1089–1097
Pharmacotherapy and health care costs among patients with schizophrenia and newly diagnosed diabetes, July 803–809
A pharmacy-based coaching program to improve adherence to antidepressant treatment among primary care patients, Apr 487–489
Pharmacy costs: finding a role for quality (state mental health policy), Aug 909–911
Physicians' and patients' involvement in relapse prevention with antipsychotics in schizophrenia, Nov 1448–1450
Potential effects of the new Medicare drug benefit on pricing for psychotropic medications (economic grand rounds), Sept 1056
Psychologist prescribing (letter), Mar 356–357
A review of medication administration errors reported in a large psychiatric hospital in the United Kingdom, Dec 1610–1613
Suicidal ideation and pharmacotherapy among STEP-BD patients, Dec 1534–1540
Surreptitious prescribing in psychiatric practice (open forum), Apr 481–483. Also see Ethical issues in surreptitious prescribing (letter), Aug 1023
Trends in ADHD and stimulant use among adults: 1995–2002, Dec 1497
Use of long-acting risperidone (letters, reply), Jan 105–107
Use of prescription psychiatric drugs and religious service attendance (datapoints), Apr 396
Use of pulse oximetry during restraint episodes, Oct 1313–1314
Weight loss and anorexia with quetiapine (letter), Apr 490

Public assistance

Consumer views of representative payee use of disability funds to leverage treatment adherence, Jan 45–49
Relationship between entry into child welfare and mental health service use, Aug 981

Quality assurance, quality of care

Assessment of Medicaid managed behavioral health care of persons with serious mental illness, Oct 1245–1253. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
The Clinical Strategies Implementation Scale to measure implementation of treatment in mental health services, Dec 1584–1590. Also see Fidelity measurement and the CSI, Dec 1591 and Fidelity measurement, the CSI, and the current evidence base (commentary), Dec 1592
Comparison of psychiatrists' and other physicians' assessments of their ability to deliver high-quality care, Mar 308–314. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Disparities in depression treatment for Latinos and site of care, Dec 1517–1523
Disparities in mental health treatment in U.S. racial and ethnic minority groups: implications for psychiatrists, Dec 1600–1602
"Doctor's standing orders" (personal accounts), Oct 1203–1204
Do state Medicaid preferred drug lists affect patient safety? PDLs and the treatment of severe and persistent mental illness (patient safety forum), Aug 1015–1016
Do state Medicaid preferred drug lists affect patient safety? Policy experiments in the states (patient safety forum), Aug 1012–1013
Do state Medicaid preferred drug lists affect patient safety? Unintended consequences of PDIs (patient safety forum), Aug 1013–1014
Do state Medicaid preferred drug lists affect patient safety? Washington state's success story (patient safety forum), Aug 1014–1015
Drug-drug interactions: the silent epidemic (economic grand rounds), Jan 22–24
Fidelity measurement and the CSI, Dec 1591
Fidelity measurement, the CSI, and the current evidence base (commentary), Dec 1592
Improving the quality of depression care in Medicaid (economic grand rounds), Oct 1193–1195
Measuring the effectiveness of outpatient care (taking issue), Mar 241. Also see Overstating the case about recovery? (letter, reply), Aug 1022–1023
Overstating the case about recovery? (letter, reply) Aug 1022–1023
Oxcarbazepine and risk of falls among psychiatric inpatients (letter), Dec 1623–1624
A patient's perspective on psychologist prescribing (letter, reply), Feb 219–220
Patterns and quality of treatment for patients with schizophrenia in routine psychiatric practice, Mar 283–291. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Performance measures for early treatment services for psychosis, Dec 1570–1582. Also see Selecting performance measures by consensus: an

appropriate extension of the Delphi method? (commentary), Dec 1583
Pharmacy costs: finding a role for quality (state mental health policy), Aug 909
Predictors of adequacy of depression management in the primary care setting, Dec 1524–1528
A review of medication administration errors reported in a large psychiatric hospital in the United Kingdom, Dec 1610–1613
Selecting performance measures by consensus: an appropriate extension of the Delphi Method? (commentary), Dec 1583
A survey of mental health leaders one year after the President's New Freedom Commission report, May 605–607

Quality of life
Assessment of the burden of disease among inpatients in specialized units that provide psychotherapy, Sept 1153–1155
Construct validity of a measure of subjective satisfaction with life of adults with serious mental illness, Mar 292–300. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612

Race. Also see Ethnic groups
Access to specialty mental health services among women in California, June 729–734
APA's efforts to eliminate disparities, Dec 1603–1605
Cross-cultural psychopharmacology: a current clinical perspective (psychopharmacology), Jan 31–33
Disparities in mental health treatment in U.S. racial and ethnic minority groups: implications for psychiatrists, Dec 1600–1602
Effect of Medicaid eligibility category on racial disparities in the use of psychotropic medications among youths, Feb 157–163
Highlights of the 2004 Institute on Psychiatric Services (special report), Jan 16–21
Posttraumatic stress disorder among African Americans in an inner city mental health clinic, Feb 212–215
Race, gender, and psychiatrists' diagnosis and treatment of major depression among elderly patients, June 721–728
Race, urban community stressors, and behavioral and emotional problems of children with special health care needs, Jan 63–69
Racial differences in syndromal and subsyndromal depression in an older urban population, Dec 1556–1563
Racial differences in the treatment of veterans with bipolar disorder, Dec 1549–1555
Racism and mental disorders (letter, reply), Feb 220–221
Racism and mental illness (letter, reply), June 753–754
Recent trends in suicide among U.S. adolescent males, 1992–2001 (datapoints), May 522
The role of Afro-Canadian status in police or ambulance referral to emergency psychiatric services, June 705–710
Use of substance abuse services by young uninsured American adults, Aug 946–953

Rehabilitation, psychosocial, vocational
Assertive community treatment for persons with severe and persistent mental illness in ethnic minority groups (best practices), Sept 1053–1055
A case report of the conversion of sheltered employment to evidence-based supported employment in Canada, Nov 1436–1440
Consumers' goals in psychiatric rehabilitation and their concordance with existing services, Feb 209–211
Drug and psychosocial curricula for psychiatry residents for treatment of schizophrenia: part II (rehab rounds), Jan 28–30
The effectiveness of skills training for improving outcomes in supported employment, Oct 1254–1260
Efforts to encourage entrepreneurship among persons with mental illness (letter), Mar 359–360
Factors associated with a positive response to cognitive remediation in a community psychiatric sample, May 602–604
A group-based walking program at a psychiatric rehabilitation center (frontline reports), Mar 354–355
The impact of the "incarceration culture" on reentry for adults with mental illness: a training and group treatment model (best practices), Mar 265–267
Outcomes-based funding for vocational services and employment of people with mental health conditions, Nov 1429–1435
Patterns and quality of treatment for patients with schizophrenia in routine psychiatric practice, Mar 283–291. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Psychiatric rehabilitation in a Chinese psychiatric hospital (rehab rounds), Apr 401–403
Recovery from schizophrenia: a concept in search of research (open forum), June 735–742
Reducing reductionism: reclaiming psychiatry (taking issue), June 637. Also see Psychiatry and the recovery process (letter), Sept 1160

Religion
The faith community and mental health care (taking issue), Feb 133
The imam's role in meeting the counseling needs of Muslim communities in the United States, Feb 202–205
Obstacles and opportunities in providing mental health services through a faith-based network in Los Angeles, Feb 206–208
Use of prescription psychiatric drugs and religious service attendance (datapoints), Apr 396

Research, research design
Client involvement in services research (letter), Oct 1315
Defining and measuring clinical effectiveness in the treatment of schizophrenia, Mar 273–282. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Design strengths and issues of SAMHSA's Women, Co-occurring Disorders, and Violence Study, Oct 1233–1236. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Federal agencies, national organizations announce agendas for transforming the mental health system, Sept 1169–1170
Generalizability of studies on mental health treatment and outcomes, 1981 to 1996, Oct 1261–1268
Inclusion of mental health consumers on research teams (letter), Sept 1158–1159
Introduction to the special section (special section on relapse prevention), Oct 1269
The loss of federal support for multisite demonstrations (taking issue), Oct 1185. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Medicine-based evidence in mental health (commentary), May 543. Also see Reinventing evidence-based interventions? (letter, reply), Sept 1156–1157
The need for effectiveness trials to inform evidence-based psychiatric practice (psychopharmacology), June 649–651
Potential effects of the new Medicare drug benefit on pricing for psychotropic medications (economic grand rounds), Sept 1056–1058
Psychologist prescribing (letter), Mar 357
Recovery from schizophrenia: a concept in search of research (open forum), June 735–742
The role of services researchers in facilitating intervention research, May 537–542. Also see Reinventing evidence-based interventions? (letter, reply), Sept 1156–1157

Residential treatment
Predictors of children's involvement in parents' treatment among homeless veterans in community residential care, Sept 1147–1149
A randomized trial of short-term acute residential treatment for veterans, Nov 1379–1386

Restraint and seclusion
Closing doors on acute psychiatric units: time to change (taking issue), Sept 1047
Consumers' perceptions of negative experiences and "sanctuary harm" in psychiatric settings (special section on seclusion and restraint), Sept 1134–1138. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
The economic cost of using restraint and the value added by restraint reduction or elimination (special section on seclusion and restraint), Sept 1109–1114. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Encouraging alternatives to seclusion, restraint, and reliance on PRN drugs in a public psychiatric hospital (special section on seclusion and restraint), Sept 1105–1108. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Introduction to the special section (special section on seclusion and restraint), Sept 1104
Patient characteristics and setting variables related to use of restraint on four inpatient psychiatric units for youths, Feb 186–192
Patients' reports of traumatic or harmful experiences within the psychiatric setting (special section on seclusion and restraint), Sept 1123–1133. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Pennsylvania state hospital system's seclusion and restraint reduction program (special section on seclusion and restraint), Sept 1115–1122. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Reducing the use of seclusion and restraint: a NASMHPD priority (special section on seclusion and restraint), Sept 1141–1142. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314
SAMHSA's commitment to eliminating the use of seclusion and restraint (special section on seclusion and restraint), Sept 1139–1140. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314
Use of coercive measures in a psychiatric intensive care unit in Slovenia (letter), Apr 491–492

Stress disorders, posttraumatic
The costs and outcomes of treatment for opioid dependence associated with posttraumatic stress disorder, Aug 940–945
Design strengths and issues of SAMHSA's Women, Co-occurring Disorders, and Violence Study, Oct 1233–1236. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
A developmental model for rural telepsychiatry, Aug 976–980
Follow-up of Pentagon employees two years after the terrorist attack of September 11, 2001, Nov 1374–1378
Mental health needs of cohabiting partners of Vietnam veterans with combat-related PTSD, Sept 1150–1152
Posttraumatic stress disorder among African Americans in an inner city mental health clinic, Feb 212–215
Psychological distress of nurses in Taiwan who worked during the outbreak of SARS, Jan 76–79
Race, urban community stressors, and behavioral and emotional problems of children with special health care needs, Jan 63–69
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Symptoms of peritraumatic and acute traumatic stress among victims of an industrial disaster, Jan 93–95
Twelve-month outcomes of trauma-informed interventions for women with co-occurring disorders, Oct 1213–1222. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621

Substance-related disorders, treatment
2004 survey finds decline in illicit drug use among, Oct 1326
Association between concurrent depression and anxiety and six-month outcome of addiction treatment, Aug 927–933
The costs and outcomes of treatment for opioid dependence associated with posttraumatic stress disorder, Aug 940–945
Design strengths and issues of SAMHSA's Women, Co-occurring Disorders, and Violence Study, Oct 1233–1236. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Factors that influence staffing of outpatient substance abuse treatment programs, Aug 934–939
Fidelity of an outreach treatment program for chronic crack abusers in the Netherlands to the ACT model, Nov 1451–1454
A focus group analysis of relapse prevention strategies for persons with substance use and mental disorders (special section on relapse prevention), Oct 1288–1291
Future directions in preventing relapse to substance abuse among clients with severe mental illnesses (special section on relapse prevention), Oct 1297–1302
Health service use among persons with comorbid bipolar and substance use disorders, Apr 475–480
Housing preferences of homeless veterans with dual diagnoses, Mar 350–352
How adolescents perceive the stigma of mental illness and alcohol abuse, May 544–550
Identification and treatment of substance misuse on an inpatient psychiatry unit, Mar 347–349
Incarceration associated with homelessness, mental disorder, and co-occurring substance abuse, July 840–846
Introduction to the special section (special section on relapse prevention), Oct 1269
Is parity for the treatment of substance use disorders really sensible? (alcohol & drug abuse), Feb 153–155
A longitudinal perspective on monitoring outcomes of an innovative program, Mar 301–307. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Major mental disorders, substance use disorders, comorbidity, and HIV-AIDS risk behaviors in juvenile detainees, July 823–828
Mental disorders exact heavy toll on young people, according to the second national comorbidity survey, July 885
New CSAT treatment improvement protocol addresses group therapy's role in substance abuse treatment, July 886
Providing housing first and recovery services for homeless adults with severe mental illness, Oct 1303–1305
Qualitative interviews on substance abuse relapse and prevention among female trauma survivors (special section on relapse prevention), Oct 1292–1296
Relapse of substance use disorder and its prevention among persons with co-occurring disorders (special section on relapse prevention), Oct 1270–1273
Relationship between criminal arrest and community treatment history among patients with bipolar disorder, July 847–852. Also see Criminal arrests and the threshold for competence (letter, reply), Nov 1461–1462
Relationship between use of psychiatric services and five-year alcohol and drug treatment outcomes, Feb 164–171
Review of treatment recommendations for persons with a co-occurring affective or anxiety and substance use disorder, Aug 913–926
SAMHSA releases revised and updated treatment improvement protocol on co-occurring disorders, Mar 371
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Substance abuse relapse and factors associated with relapse in an inner-city sample of patients with dual diagnoses (special section on relapse prevention), Oct 1274–1281
Substance abuse relapse in a ten-year prospective follow-up of clients with mental and substance use disorders (special section on relapse prevention), Oct 1282–1287
Twelve-month outcomes of trauma-informed interventions for women with co-occurring disorders, Oct 1213–1222. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Use of mental health care and substance abuse treatment among adults with co-occurring disorders, Aug 954–959
Use of substance abuse services by young uninsured American adults, Aug 946–953

Suicide, suicide behavior
Assessment of police calls for suicidal behavior in a concentrated urban setting, Dec 1606–1609
Completed suicide in late life (practical geriatrics), Mar 260–262

Intensive dialectical behavior therapy for outpatients with borderline personality disorder who are in crisis, Feb 193–197
Recent trends in suicide among U.S. adolescent males, 1992–2001 (datapoints), May 522
Suicidal ideation and pharmacotherapy among STEP-BD patients, Dec 1534–1540

Telemedicine
A developmental model for rural telepsychiatry, Aug 976–980

This month's highlights
Jan 15, Feb 135, Mar 243, Apr 395, May 517, June 641, July 785, Aug 903, Sept 1051, Oct 1187, Nov 1343, Dec 1490

Trauma
The Child and Adolescent Services Program of the World Trade Center Healing Services, Saint Vincent Catholic Medical Centers, New York: providing trauma-related treatment to students after the terrorist attacks of September 11, 2001, and other traumatic events, Oct 1309–1311
Consumers' perceptions of negative experiences and "sanctuary harm" in psychiatric settings (special section on seclusion and restraint), Sept 1134–1138. Also see Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Design strengths and issues of SAMHSA's Women, Co-occurring Disorders, and Violence Study, Oct 1233–1236. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Follow-up of Pentagon employees two years after the terrorist attack of September 11, 2001, Nov 1374–1378
Patients' reports of traumatic or harmful experiences within the psychiatric setting (special section on seclusion and restraint), Sept 1123–1133. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Posttraumatic stress disorder among African Americans in an inner city mental health clinic, Feb 212–215
Qualitative interviews on substance abuse relapse and prevention among female trauma survivors (special section on relapse prevention), Oct 1292–1296
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Symptoms of peritraumatic and acute traumatic stress among victims of an industrial disaster, Jan 93–95
Twelve-month outcomes of trauma-informed interventions for women with co-occurring disorders, Oct 1213–1222. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314

US Substance Abuse and Mental Health Services Administration
2004 survey finds decline in illicit drug use among, Oct 1326
"Doctor's standing orders" (personal accounts), Oct 1203– 1204
Federal agencies, national organizations announce agendas for transforming the mental health system, Sept 1169–1170
The loss of federal support for multisite demonstrations (taking issue), Oct 1185. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
SAMHSA's commitment to eliminating the use of seclusion and restraint (special section on seclusion and restraint), Sept 1139–1140
SAMHSA releases revised and updated treatment improvement protocol on co-occurring disorders, Mar 371
SAMHSA report examines a decade of spending on mental health and substance abuse treatment, June 767
Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314

Utilization of services
Assessment of Medicaid managed behavioral health care of persons with serious mental illness, Oct 1245–1253. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
A comparison of service use and costs among adults with ADHD and adults with other chronic diseases, Dec 1593–1599
The Cornell Service Index as a measure of health service use, Dec 1564–1569
Cost-sharing requirements and access to mental health care among medicare enrollees with schizophrenia, Aug 960–966. Also see Correction (omission of coauthors and acknowledgement), Nov 1346
Demand for mental health care and changes in service use patterns in the Netherlands, 1979 to 1995, Nov 1409–1415
Follow-up of Pentagon employees two years after the terrorist attack of September 11, 2001, Nov 1374–1378
Health service use among persons with comorbid bipolar and substance use disorders, Apr 475–480
High utilizers of psychiatric emergency services, June 678–684
The impact of capitated financing on psychiatric emergency services, June 685–690
Medicaid as a payer for services provided by psychiatrists (datapoints), Nov 1356
Psychiatric emergency service use after implementation of managed care in a public mental health system, June 691–698
Psychiatric emergency service use and homelessness, mental disorder, and violence, June 699–704
Relationship between entry into child welfare and mental health service use, Aug 981–987
Service expectations and clinical characteristics of patients receiving psychiatric emergency services, June 743–745
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Service use by Asian Americans (letter, reply), Oct 1314–1315
Trends in U.S. emergency department visits for mental health conditions, 1992 to 2001, June 671–677
Use of health care services among persons who screen positive for bipolar disorder, Dec 1529–1533
Use of mental health care among youths in 1997 and 2002 (datapoints), July 793
Use of mental health care and substance abuse treatment among adults with co-occurring disorders, Aug 954–959
Use of mental health services after Hurricane Floyd in North Carolina, Nov 1367–1373
Use of mental health services by Asian Americans, June 746–748. Also see Service use by Asian Americans (letter, reply), Oct 1314–1315
Use of practitioner-based alternative therapies by psychiatric outpatients (letter), Nov 1460–1461
Use of substance abuse services by young uninsured American adults, Aug 946–953

Veterans, veterans' health care
Continuity of care and clinical outcomes in a national health system (special section on the GAF), Apr 427–433
A developmental model for rural telepsychiatry, Aug 976–980
Effectiveness versus efficacy of second-generation antipsychotics: haloperidol without anticholinergics as a comparator (open forum), Jan 85–92
Health service use among persons with comorbid bipolar and substance use disorders, Apr 475–480
Housing preferences of homeless veterans with dual diagnoses, Mar 350–352
Improving treatment engagement and integrated care of veterans, Oct 1306–1308
A longitudinal perspective on monitoring outcomes of an innovative program, Mar 301–307. Also see Closing the gap in evaluation technology for outcomes monitoring (letter), May 611–612; Modern times and quality of care (letter), May 612
Medicine-based evidence in mental health (commentary), May 543. Also see Reinventing evidence-based inter-

ventions? (letter, reply), Sept 1156–1157
Mental health needs of cohabiting partners of Vietnam veterans with combat-related PTSD, Sept 1150–1152
Predictors of children's involvement in parents' treatment among homeless veterans in community residential care, Sept 1147–1149
Pharmacotherapy and health care costs among patients with schizophrenia and newly diagnosed diabetes, July 803–809
Racial differences in the treatment of veterans with bipolar disorder, Dec 1549–1555
A randomized trial of short-term acute residential treatment for veterans, Nov 1379–1386
Family participation in the treatment of persons with serious mental illness (letter), Dec 1624–1625
Supporting clinicians in the development of best practice innovations in education (best practices), July 786–788
The role of services researchers in facilitating intervention research, May 537–542. Also see Reinventing evidence-based interventions? (letter, reply), Sept 1156–1157
Treatable comorbid conditions and use of VA health care services among patients with dementia, Jan 70–75
Use of CBT in a walking program for veterans with diabetes and depression (frontline reports), Mar 355
Using the GAF as a national mental health outcome measure in the Department of Veterans Affairs (special section on the GAF), Apr 420–426

Violence, aggression

An actuarial model of violence risk assessment for persons with mental disorders, July 810–815
Consumers' perceptions of negative experiences and "sanctuary harm" in psychiatric settings (special section on seclusion and restraint), Sept 1134–1138. Also see Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Dangerous severe personality disorders: England's experiment in using psychiatry for public protection (law & psychiatry), Apr 397–399. Also see Patient prosecution: protection or persecution? (letter), July 872–874
Design strengths and issues of SAMHSA's Women, Co-occurring Disorders, and Violence Study, Oct 1233–1236. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Ethnic differences in prediction of violence risk with the HCR-20 among psychiatric inpatients, June 711–716
Guidelines for behavioral emergencies (letter), Sept 1159–1160
Patient prosecution: protection or persecution? (letter), July 872
Patients' reports of traumatic or harmful experiences within the psychiatric setting (special section on seclusion and restraint), Sept 1123–1133. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Pennsylvania state hospital system's seclusion and restraint reduction program (special section on seclusion and restraint), Sept 1115–1122. Also see Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314; Past and current views on the use of seclusion and restraint (letter, reply), Dec 1621–1622
Psychiatric emergency service use and homelessness, mental disorder, and violence, June 699–704
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Twelve-month outcomes of trauma-informed interventions for women with co-occurring disorders, Oct 1213–1222. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Use of pulse oximetry during restraint episodes (letter), Oct 1313–1314

Women's health

Access to specialty mental health services among women in California, June 729–734
Depression among Latina immigrant mothers separated from their children, June 717–720
Depression, cognition, and anxiety among postmenopausal women with breast cancer (practical geriatrics), Nov 1353–1355
Design strengths and issues of SAMHSA's Women, Co-occurring Disorders, and Violence Study, Oct 1233–1236. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Mental health needs of cohabiting partners of Vietnam veterans with combat-related PTSD, Sept 1150–1152
Qualitative interviews on substance abuse relapse and prevention among female trauma survivors (special section on seclusion and restraint), Oct 1292– 1296
Service use and costs for women with co-occurring mental and substance use disorders and a history of violence, Oct 1223–1232. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621
Twelve-month outcomes of trauma-informed interventions for women with co-occurring disorders, Oct 1213–1222. Also see Recovering the momentum for federal support of multisite demonstrations (letter), Dec 1621

World Psychiatric Association

Local projects of the World Psychiatric Association Programme to reduce stigma and discrimination, May 570–575
